**I. SUMMARY**

My name is @RussellRope and I am an original genius and innovative entrepreneur with an active federal lawsuit in the Supreme Court of The United States vs. Facebook, Apple, Alphabet, Twitter, JPMorgan Chase & Co., and John Does 1 to 10(is infinite). The case is brought under an honest RICO (Racketeering Influenced Corrupt Organization) claim with many counts of nearly thirty causes of action spanning over a decade with a conspiracy tort binding them all together through an obvious pattern of criminal racketeering activity. Clear and convincing facts and indisputable evidence render Respondents as legit defenseless, meaning they have no excuse, so they have been obstructing justice through levels of a corrupt justice system, falsely arrested and imprisoned me several times, and still are not limited to stalking, harassing, trying to provoke altercations and entrap in literal attempt to take my life and priceless intellectual property is the motive.

John Does consist of evil people from my real life, connected to fools at trigger pulling corporations I am taking legal action against, possibly additional corporations I could not afford to file against at the time but have plans to amend, and a ridiculous amount of extremely foolish government actors. These people are all fraudsters and cowards; incompetent in comparison to my person, and digging deep will lead to discovery of much "fake news" and "the swamp" linked to this situation without directly acknowledging it

as they have been trying to cut my reach. Respondents/Defendants have not once denied the criminal accusations. These idiots leave paper trails in part because they are dumb, but also with hope of gaining fame for their exploitation of my name. No one has ever debated or questioned any of my statements to my face in person or online because anyone who knows me knows this is real and probably stands to benefit from coerced and underrated expectations. Thousands of pages of writing in peaceful protest(when I could have much more easily built bombs or taken other paths of violence), years shed off my life, a tremendous amount of irreparable collateral damage, six years after originally filing, and I still have not even been permitted any type of normal conversation with an attorney let alone a judge. This injustice is 100% real and has been going on for over a decade, probably much longer, and I am surely not the only victim being the Petitioner in pro per.

## II. MISSION STATEMENT

The purpose of this document is to **“Terminate Obstruction of Justice”**

I believe that awareness and publicity can help terminate obstruction of justice by making the collective “they,” specifically including the government actors, believe they are going to be held accountable for worse than intentional neglect and stalling is illegal obstruction. The case files and evidence are available both on my blog and verifiably accessible via public court docket systems. I do not need to bluff because I became my own federal attorney, someone who practices law professionally on the federal level, with the absolute winning hand and NO FEAR is false evidence appearing real. They would have already arrested me for perjury if there were true doubt as to the sincerity and persistence behind my claims.
