### **INTRODUCTION:**

RR Productions, established in 1995, is a world-class media production, digital publishing, and marketing company specialized in entertainment, arts, media, technology, communications, cannabis hemp, events, and lifestyle. Headquartered in Los Angeles with global affiliates, RRP is notorious for implementing innovative, progressive, disruptive, and overall creative campaigns designed for success.

The internship program was created with both business and student in mind. This position will expose participants to collaboration within a uniquely innovative startup business, which is already established with pioneering claims over competition, so much of the legwork has already been completed and the potential for success is much greater. Knowledge, mentorship, and career development guaranteed.

### **OPPORTUNITY:**

The present internship is focused on growing back through the cracks at Weed Connection dot com, which has been cut down time after time, but times have changed and the wild plant that used to grow where unwanted, and in competition with cultivated plants and big pharma, is now the most valuable cash crop in the world.

Weed Connection ("WC") started as an OG caregiving operation in 1997; just after passage of California Proposition 215. WC then evolved into an original source for medical and recreational cannabis information and entertainment. With a business model based on media and merchandise, WC is a pioneer in providing users and clients with an original experience of connectivity in a new and growing industry.

Convergence of cannabis, media, and information technology is still relatively new and evolving. Copy-cat companies are presently valued at 1-to-4 billion dollars. WC plans to top them. This is a one-of-a-kind opportunity to reap some rewards without investing decades or risking freedom; so legit the creator is all in with transparent life on it.
