17 **I. DECLARATION & INTRODUCTION**

18 I, Russell Rope, *Petitioner in pro per*, declare under possible penalty of perjury that not  
19 only am I both factually innocent and have always been most competent to stand trial  
20 *pro se* in any court, but also that all the following is undeniable truth, which can be  
21 further, or already has been, elaborated upon in greater detail supported by forensic  
22 science being clear and convincing evidence.

23  
24 With all due respect for good law enforcement, this petition for gubernatorial pardon is  
25 hereby submitted with purpose for acquiring as much relief as possible from Governor  
26 Newsom; specifically, a pardon for an unreal 422 conviction from expunged 2015-2016  
27 case #BA437791 to restore firearm rights and return property. Also if directly possible,  
28 or via recommendation to the court, to correct, seal and destroy records of the alleged

1 false arrest(s) if not the entire record; mostly for integrity, reinstatement of the unfairly  
2 suspended constitutional right demanding return of property; specifically, the small  
3 pistol, two magazines, ammunition, and lockbox illegally seized by a corrupt not limited  
4 to “deputy gang” from Lost Hills Sheriff’s Station, which had motive and coincidentally  
5 or not was at the time following chains of fools ultimately commanded by the found to  
6 be corrupt now imprisoned former LA County Sheriff; point being that it is reasonable  
7 for an honorable Governor and judge to grant favorable orders with assumption that  
8 allegations of corruption are probable if not absolutely accurate.

9  
10 Termination of firearm prohibition, which is based on the 422 false arrest follow up to  
11 the CCW denial by 5150 in 2014, both detailed below, has been intentionally and  
12 criminally delayed corresponding to and by patterns of racketeering activity including  
13 suspects within the Department of Justice (“DOJ”) Bureau of Firearms (“BOF”) who  
14 missed their own deadline and most probably due to foolish opposition stall tactics,  
15 which were followed up with misdirection and concealment not limited to recent  
16 probable intent for another Sheriff entrapment with motive being more obstruction of  
17 action against corruption. Defendants of Petitioner’s federal Racketeer Influenced &  
18 Corrupt Organization Act (“RICO”) claim have been relentlessly attacking and  
19 intentionally draining time and drawing attention away from this to vital priorities such  
20 as housing, healthcare, and fixing too many business website hacks while they are worse  
21 than colluding with DOJ puppets to obstruct justice where opposition was first alleged  
22 by Petitioner, in numerous complaints and reports, to be criminally violating state and  
23 federal laws.

24  
25 Petitioner requires urgent prioritization if not “emergency” treatment because of a time  
26 limit regarding illegally seized property to be returned before it is scheduled to be  
27 destroyed on 9/28/2023, relentless stalking and threats on Petitioner’s life, and because  
28 recovering the illegally seized property could prevent heavy RICO being filed charges

1 against all individuals involved. The pardon is mainly for the unfair 422 conviction, but  
2 Petitioner is attempting to clear as much of his records as possible and since it will all  
3 be taken into consideration upon review, this document points out all the errors.  
4 Property sought to be returned would only be possessed for security with demonstrated  
5 preference to utilize the justice system. This action is also based on principles of fairness  
6 and supreme ethics.

## 8 **II. PARTIES**

9 Original parties, or at least the fake victim from case #BA437791, are irrelevant to this  
10 action because the DOJ BOF is requiring a pardon or order for eligibility based on the  
11 conviction from that expunged case for purpose of restoring rights and returning  
12 property priorly taken during illegal search and seizure followed by unfair and long  
13 expired relinquishment order from the completely separate case #ZM025125. Previous  
14 judges should also be no less than recused from this personal matter as they are all  
15 indirectly pleaded against and identified under seal as justice obstructing Defendant  
16 Does to said RICO claim; therefore, there is definitive conflict of interest.

17  
18 No other human will be affected by granting this individual legal action unless they  
19 physically attempt to take Petitioner's life, or that of another, and he is both reasonably  
20 forced and able to defend, which is the honorable right of any law-abiding citizen.  
21 Petitioner truly has much bigger fish to fry in federal court than to jeopardize his  
22 inevitable payday by abusing restored rights to commit a crime; let alone on the dislikes  
23 of bottom-feeding on easily accessible, possibly coerced, daily puppet string pulled  
24 camera stalkers and trappers. Moreover, justice with peace and freedom can only be  
25 attained through civility. In this action, Petitioner is humbly requesting his equal  
26 rights, return of his private property, and to set his personal record straight.

1 **A. Petitioner; Not Defendant**

2 Russell Rope is a licensed business, man, for the past decade living in the heart of  
3 Hollywood, California. Born and raised minutes away within Los Angeles County,  
4 Russell is highly educated, disciplined, righteously competitive, and comes from an  
5 upper-middle class, local-native family mostly comprised of attorneys and doctors.  
6 Growing up with evolution and mastery of cutting-edge technology based upon a  
7 foundation of access to the original personal computers and evolution of the internet, he  
8 became a serial entrepreneur with innovative and pioneering ventures in the  
9 convergence of where he has been on the same self-guided and award-winning track  
10 since childhood. Priceless intellectual property developed over decades is money is the  
11 main motive for greedy and envious opposition. Petitioner has, and at the time just  
12 before false arrests had, received and reported numerous unjustified death threats on  
13 his person, reports of which, along with all others through present, have been criminally  
14 obstructed by the racket thereby giving rise to reason for securing independent  
15 protection being a reasonable, small and concealable pistol.

16  
17 The reality of the situation is that Petitioner has been “falsely arrested” several times,  
18 but is not currently defending against any legal action, nor has he ever “lawfully” been  
19 accused of, let alone charged with anything more than an infraction. Initially the  
20 plaintiff *in pro per* in a 2014-present federal RICO claim, which has been refiled,  
21 appealed, obstructed, frozen in SCOTUS pending new petition in queue, etc. where  
22 actual defendants have no legitimate defense, Petitioner has been bombarded with  
23 relentless attempted gaslighting and character framing, physical and metaphysical  
24 attacks, attempted entrapments turned false arrests, grand thefts, daily stalking with  
25 intent to harass and worse than anything one person could conceive in an outrageous  
26 and cowardly scheme to take life, steal business, and evade justice. That is not how this  
27 true story ends because this petition must be granted.

28

1 **B. Respondent; The People (includes Petitioner & Governor Newsom)**

2 The People and Petitioner should be viewed as one and the same in this action, which  
3 should be without opposition as it is simply a petition to restore constitutional rights  
4 that were illegitimately disrupted years ago. Petitioner is the only victim from not only  
5 the case that resulted false arrest, illegal search and seizure of the property to be  
6 returned, but also in the follow-up fraud necessitating this action. Unlike a chunk of  
7 the puppet opposition, “we the people” are American citizens. The preponderance of  
8 evidence and points made in courtrooms logically proved opposing party fabrication.  
9 Complete transcripts would not only exhibit technically irrelevant not so random word  
10 injections indicating political party and religious preference of a corrupt mental health  
11 court judge following the pattern of racketeering activity, but also that the ridiculous  
12 pre-trial testimony from the alleged victim in the criminal case, combined with  
13 Petitioner’s Motion to Dismiss and exonerating evidence, easily prove perjury. The  
14 responding party to this petition also includes Governor Newsom who is basically both  
15 judge and respondent with responsibility to use discretionary authority to rule that  
16 there is no honest argument against this action. Governor Newsom must do the right  
17 thing thereby separating his office from the malicious prosecutions and obstructions for  
18 which people belong behind bars. Petitioner is still pursuing civil remedy using possible  
19 prison sentences as leverage for relief as requested.

20  
21 **III. BACKGROUND**

22 This document covers Petitioner’s brief and should be nonexistent “not a criminal”  
23 record because most of it was orchestrated in attempt to render Petitioner defenseless  
24 to evil RICO Defendants first attacking, then conspiring to obstruct while using the  
25 justice system as means to take Petitioner’s life physically if not metaphorically. “They,”  
26 referring to the criminal enterprise and conspirators in any way involved with  
27 furtherance of the racket, created problems; not vice versa. Petitioner is a diligent  
28 solutions man. It is for this reason and in the interest of justice that records be

1 corrected, destroyed, and sealed, with rights restored, property returned, and order or  
2 at least recommendation for LA County Sheriff to issue a Carry Concealed Weapons  
3 (“CCW”) permit, which should have been issued in 2014 and is a “benefit of the bargain”  
4 remedy for fraud opposed to all the resulting false arrests. Petitioner filed a Law  
5 Enforcement Release (“LER”) application for return of his pistol a few years ago, but  
6 pretentious government actors, aka “criminals,” are conspiring with roots of evil  
7 racketeers and pulling strings in the DOJ. Racketeers have been coming up with  
8 patterns of disingenuous reasons for insanely long delays and forced repetition of tasks  
9 regarding not limited to denying the return; stall / time draining and trap tactics.

10  
11 The racket is similarly interfering with Petitioner’s healthcare, housing, income, and  
12 pretty much every aspect of life. Conspirators including local and federal authorities  
13 have been delaying and neglecting in collusion with those stalking, trying to gaslight,  
14 provoke and entrap Petitioner literally every damn day. It should be apparent that  
15 racketeers are framing Petitioner’s character with lies about his mental health, which  
16 has always been perfect, and not only because fabrications coincide with false arrests  
17 and other attacks following a linear timeline of retaliation for Petitioner defensively  
18 filing as pro se Plaintiff with indisputable evidence; to the irrational point where all  
19 opposition have zero evidence in support of their allegations because Petitioner is  
20 innocent, yet there was plenty of time to change the BOF prerecorded phone system  
21 with abnormal prioritization on mental health. Thieves who are much less intelligent  
22 could not villainize Petitioner, so they attempt to frame perceptions for manipulative  
23 purposes. All it takes is literacy and honest conversation to see this is the truth.

24  
25 The only reason given for denial by the BOF was a vague reference to the follow up false  
26 arrest 422 criminal threat charge reduced to misdemeanor before forced no contest plea,  
27 which was later expunged, with no relinquishment order, and only a standard  
28 temporary weapons prohibition while on bail, own recognizance and informal probation.

1 Petitioner was screwed by the public defenders (“PD”) and deceived by BOF’s intent to  
2 waste limited time and money on an at the time irrelevant live scan, which is a current  
3 transcript of an individuals’ criminal record, to challenge what was surely conceived  
4 around the time of false imprisonment caused by puppet string-pulled corruption: public  
5 defenders, judges, and shrinks in conspiracy with the racket. They should have been  
6 straight up about the (false) “conviction” being a default 10-year gun prohibition  
7 regardless of expungement; nevertheless, the background check became inadmissible  
8 upon 30-day expiration date. Order from the court was the only possible remedy offered  
9 for return, or as a possible trap tactic. Petitioner had to figure out the seemingly  
10 concealed method for accomplishing both the pending court process and alternative less  
11 probable to be corrupt petition to the Governor by doing research solo dolo per usual, so  
12 he became informed enough to know for certain that both remedies are possible and  
13 without facing the evil judge who already proved willingness to obstruct or worse by  
14 sending Petitioner to the also corrupt mental health court resulting in said false  
15 imprisonment without a trial. Please do not let Petitioner down because he believes  
16 that Governor Newsom can be honorable.

17

18 Obstruction of justice over the past decade enabled multiple chains of fools not limited  
19 to worthless neophyte shrinktards trying to make names for themselves off Petitioner,  
20 including those of blood relation, trying to steal priceless IP through modernized  
21 gaslighting, character framework, and sick minded aspirations of looting a corpse or  
22 unpaid storage while falsely imprisoned, or though conservatory over Petitioner's alpha  
23 brain. They have tried to erase evidence of with intent of rewriting history because they  
24 are otherwise without “ins” and most probably would not risk careers without being  
25 bribed by evil roots of RICO. Petitioner filed far too many neglected reports to various  
26 authorities, as recently as this year, and is still moving forward with civil processes  
27 justifying firearms for protection.

28

1 **IV. CASE SUMMARIES**

2 **A. Case #BA437791 (2015) – False Arrest for PEN§ 422**

3 ♦ False Arrest + Corrupt Public Defenders & Judges; 6 Weeks False Imprisonment

4 ♦ Exonerating Defense Obstructed; No Contest Plea was Forced; Expunged in 2018

5

6 Petitioner was tortured by and is still experiencing the effects from the malicious 422  
7 charge combined with worse than obstruction of justice, which has resulted in “major  
8 damage” would be an understatement. With motive, intent, and surely bribed for  
9 purpose of entrapment-to-murder, a criminal parking officer, who testified that she did  
10 not like her job, conspired most probably with the incompetent criminal landlord whose  
11 puppet strings were absolutely pulled by evil John Doe defendants of Petitioner’s RICO  
12 claim. There was no honest reason for a parking officer using a false identity to be out  
13 front of Petitioner’s tucked away villa in the Hollywood Hills where the fraudulent  
14 accuser had been in a long and loud attention drawing verbal argument with Petitioner’s  
15 crazy landlord who was ticketed for being illegally parked on the street for no legit  
16 reason when her assigned driveway spot was open and while Petitioner’s car was in his  
17 private garage. There were numerous noncoincidences linking a pattern of racketeering  
18 activity to the perjurer who clearly lied by saying Petitioner had both hands on her car  
19 and not his camera/phone, and that Petitioner, without motive, was engaging in  
20 completely out of character and unbelievably rageous for five long minutes when  
21 Petitioner had first alleged their argument was at least five minutes long, with time-  
22 stamped images proving he was only outside for 30 seconds as exhibited in the motion  
23 to dismiss filed prior to unreal testimony.

24

25 Corrupt court actors colluded to have exonerating and role reversing evidence excluded,  
26 both before and after the PD had to be fired for not filing it, and again when the scumbag  
27 unbelievably managed to force himself back on the case like WTF!? The criminal judge,  
28 who was also cast by name hack, sent Petitioner to mental health court for an

1 illegitimate reason. The first fraud court doctor’s “short report” was fabricated with  
2 obvious errors not limited to inconsistency with Petitioner’s numerous recounts, logs,  
3 pleading, etc. consisting of thousands of pages without a single discrepancy; moreover,  
4 since demanding a second opinion and providing notes from real medical doctors who  
5 spent time with Petitioner both past and present along with results of real private  
6 psychiatric tests indicating genius, access to all surely fraudulent patient records have  
7 been criminally denied including the “long report” from the second doctor who was  
8 surely defending the first. There is obvious motive that is not simply elusive, but more  
9 certainly to leave things open-ended for purpose of custom character framing tailored to  
10 the racketeered specifications and preventing the supreme intellectual’s line by line  
11 rebuttal to what is surely loads of rubbish.

12

13 This short and sweet summary should be sufficient, but much evidence is posted:

17 **B. Case #ZM025125 (2014) – False Arrest; No Conviction**

18 ♦ 5150 by Corrupt Lost Hills Sheriffs; Excuse for Defrauding of CCW Application

19 ♦ 5 Year Relinquishment Order from Corrupt (Now Closed) Mental Health Court

20

21 Defendants of the federal RICO claim have been heinously obstructing justice in courts  
22 and at law enforcement since 2014. Petitioner was and still is receiving death threats  
23 and reporting to the authorities who are conspiring with dumb Does, so he purchased a  
24 small pistol, took a class, and applied for a CCW permit from the Sheriff. None other  
25 than LASD, store purchased from, the BOF, and venue that provided training knew  
26 about the pistol, which was responsibly stored in a lockbox, which was hidden in a locked  
27 private room in Petitioner’s home. The application was intentionally delayed until  
28 Petitioner was misdirected to Lost Hills Sheriff station where they not only fabricated

1 a proven to be erroneous report, but also tried to provoke resistance via multiple  
2 unlawful searches; specifically, by checking under the underwear and touching the shaft  
3 of the penis without gloves, and then reiterating for the only logical reason being  
4 attempts to agitate and worse entrapment for resisting.

5  
6 The no longer existent mental health court was absolutely corrupt, not making decisions  
7 based on anything presented in the courtroom, and intentionally interjected words in  
8 reference to religion and politics that had no reason to be uttered other than following  
9 the pattern of racketeering activity where fools with delusions of grandeur think they  
10 are above the law and entitled to leave credit seeking footprints as if they can get away  
11 with numerous instances of more than unchecked murder. This was not only retaliation  
12 against Petitioner for defending himself, his physical and intellectual property, his  
13 licensed business, and his future family, but it has also surely since been used as false  
14 justification for obstructing and human rights violations. The bad judge issued a five-  
15 year relinquishment order. Sheriffs have confirmed possession of property, then  
16 recently attempted to lure Petitioner back to the station under the false pretense that  
17 he was eligible to recover it. This was a trap with intent for another false arrest either  
18 by provoking altercation via denying the return after being misdirected into traveling  
19 at the cost of time and gas, or by releasing with knowledge that possession would be a  
20 felony. In retrospect, this was probably an attempt to murder, if not to entrap then  
21 murder Petitioner; observation also based on back-to-back-to-back lethal automotive  
22 attacks that started around the same time. The racket has been relentlessly trying to  
23 entrap Petitioner; literally attempting to take his life on an evolving level of evil  
24 corresponding not only to filing of civil processes, but also based on petty remote screen-  
25 watching is espionage where envious fools hate on Petitioner for his independence and  
26 not conforming to their insanely defamatory narrative. This Petitioner is the only  
27 human entitled to write and produce his truth.

1 **C. Case #2CJ07941**

2 This was another false arrest more than an entrapment; like other situations because  
3 no crime was committed by Petitioner. The charge for brandishing of a pocketknife (in  
4 self-defense) was not only caused by an incompetent one-sided demand for person-to-  
5 person arrest by the false accuser and actual criminal is a faux security guard and had  
6 first invaded privacy of Petitioner in a locked bathroom stall, physically pushed is  
7 assault and battery, then aimed pepper spray at the Petitioner who was not doing  
8 anything wrong. The instigator's strings were certainly pulled by the same racketeers  
9 pulling strings not limited to at the location prior and causing misdirection to where the  
10 incident occurred, at LAPD, and in the courts. More than all the forementioned places  
11 have been trolling restrooms while knowing Petitioner has a physical disability; most  
12 probably caused by evil John Doe defendants of the RICO claim.

13  
14 The plea bargain was taken for immediate relief; misdemeanor reduced to fee-waived  
15 infraction for disturbing the peace, which was not disturbed at all, and with advance  
16 agreement to return property; the latter part of the deal was not honored by the now  
17 demonstrated to be foolish deal breaking judge thereby earning them the right to very  
18 possible federal RICO charges; especially considering other extremely evil courthouse  
19 shenanigans; specifically, racketeered camera stalking and other tricks such as filing  
20 charges after first arraignment in attempt to cause a missed appearance and arrest.  
21 Not guilty would have been crazy to turn down the deal, but intent at the time was to  
22 return to legal action from safety after the tables turned. The common pattern of  
23 Petitioner's activity exhibits extreme preference for civil resolution when incompetence  
24 becomes feloniously agitating. The exhibition was a wise and effective deterrent  
25 whereas words, raising fists, or swinging on the poor judgement of the accuser would  
26 have surely resulted in their ineffective use of pepper spray and possibly loss of their  
27 unfit life. How long does one expect nonviolent defense to felonies if obstruction of  
28 justice continues? Petitioner is a most tolerant ninja, but he is also human, and people

1 have limits. This case is of relevance not only because it was a false arrest like the  
2 others, but also because it was the only criminal charge since the previous and more  
3 relevant false arrests nearly a decade ago; point being Petitioner is well behaved.

4  
5 Not only does Petitioner have a naturally sweet disposition, but this case also stands as  
6 more evidence that not one, but two recent judges in this court found Petitioner to be  
7 both “competent” and “intelligent,” as have all others in the past with exception to the  
8 mental health related frauds; half of whom changed their stances after damage was  
9 done. These statements should be verifiable in true and complete transcripts, yet it is  
10 doubtful that the court reporter notated previously mentioned word injections because  
11 to them it probably seemed irrelevant like a spoken version of a typo. The second judge  
12 on this case had agreed with the city attorney’s office to return the confiscated  
13 pocketknife upon receipt of a written motion, but then incompetently broke the deal like  
14 predictable puppets, which is just dumb following the pattern of disarmament and  
15 attempting to render Petitioner defenseless when he had already replaced the exact  
16 item, which is necessary both as a tool and for personal protection. A third unrelated  
17 but honorable recent Superior Court judge also found Petitioner to be both “competent”  
18 and “intelligent,” then “in the interest of justice” dismissed two separate unfair traffic  
19 infractions that are more properly labeled “police harassment(s)” caused by puppet  
20 string pulled stalker cops who came at Petitioner when he returned to his parked car.  
21 The point is an honorable person ruling in favor of this petition would be acting in  
22 solidarity by recognizing that Petitioner is most competent and that granting this  
23 petition is truly in the interest of justice.

1 **D. Petitions are Like a New Civil Case**

2 Despite necessary attachment to an old case number, the former “Defendant” is back on  
3 the right side of the law with an appropriate title change to “Petitioner.” Without going  
4 through and aside from lengthy civil processes, based on a most recent rejection letter  
5 from the BOF, more research and discovering authority for viable solution. A nearly  
6 identical *ex parte* version of this petition is simultaneously being filed in Superior Court,  
7 which is believed to have direct ability correct, destroy, and seal.

8  
9 **1. Faith in Ultimate Justice**

10 Petitioner is a man of science with faith in justice, but the system has certainly been  
11 tainted by manipulators fueled by self-serving greed with pretentious justification based  
12 on religion Petitioner does not subscribe to; hypocritically, by criminals who do not abide  
13 by their chosen religions. This was basis for said word injections, and then casting of  
14 the corrupt public defender who like other obstructors is now retired, and most probably  
15 not coincidentally to others having been promoted. The law is designed with a checked  
16 and balanced science based on facts above all; certainly not for racketeers. The system  
17 is only flawed if it does not provide a solution based on following the rules and taking  
18 proper courses of action. BOF directed Petitioner to seek attainable relief from the  
19 court, no mention of the pardon process, both read to possible by law without going back  
20 to trial, so checked and balanced petitions were written for both venues. If met with  
21 any kind of seemingly racketeered opposition in court, it could be viewed as attempted  
22 entrapment via misdirection in conspiracy to RICO or more obstruction for which heavy  
23 criminal charges would inevitably be filed. Governor Newsom is able and without  
24 honest excuse not to grant relief.

25  
26 **2. Correction of Records**

27 After challenging the live scan, before discovery of somewhat concealed laws as cited,  
28 perpetrators “amended” the record with seemingly racketeered intent. This is a big

1 problem that can still be corrected and hopefully by this petition. The record appears  
2 to have been doctored to favor the incompetence conspiring to seriously illegal  
3 racketeering activity with motive for framing the character with worse than truly  
4 nonexistent mental health issues. This is not the only time or place the racket used this  
5 tactic where patterns of attempting to create false records and delete real evidence are  
6 undeniably connected and responsive to the true preponderance of Petitioner's legal  
7 grind. There are additional dings in need correction because it all adds up, and while  
8 the main purpose of this petition is a pardon for the expunged 422 conviction, Petitioner  
9 is attempting to acquire a completely clean slate; therefore, requesting any additionally  
10 appropriate action the Governor is able to take such as making a recommendation to  
11 the court for any relief he might not be able to provide.

12

13 **a. Framed Mental Health Record**

14 Amended to read "Mentally Incompetent" where it previously read "Incompetent to  
15 Stand Trial," which is a big difference and both untrue, and despite further down saying  
16 found "Competent" with competency restored, people possibly reading and making poor  
17 judgements based on this record probably pay attention to order over details when they  
18 are perceptive nor informed enough to make any decisions regarding the complicated  
19 life of Petitioner. One must be incredibly dumb to be unable to pass the tests to restore  
20 competency to stand trial, or certainly not competent enough to write like this. Anyone  
21 reading any white paper authored by Petitioner should be able to recognize Petitioner  
22 is extremely competent in much more than the legal arena. Moreover, Petitioner  
23 presented medical records from psychiatric testing proving genius as well as a note from  
24 a primary medical doctor of ten years stating Petitioner is most sane and competent.  
25 The corrupt mental health court refused not only to acknowledge those records, but also  
26 would not share those they fabricated. The entire thing was an attempt to frame the  
27 truly perfect mental health of the Petitioner, to render him defenseless to oppressors, to  
28 cover up false arrests and proven claims.

Several groups are still in violation of patients' legal rights to access medical records despite numerous official requests and even a criminally quashed subpoena. This is an obvious attempt to leave false records open-ended with intent for tailoring to anticipated follow-up entrapments and in alignment with the doctored record. Racketeers are still gang stalking Petitioner daily, literally everywhere, with gaslighting tactics attempting to agitate and provoke altercation for intended exploitation, entrapment, and murder. These are technically felonious life endangering criminals meriting lethal self-defense by Petitioner who is truly seeking peace necessitating justice.

It takes great demonstrated diligence and competency to undertake these legal actions *in pro per* without any help. The racketeered life situation makes everything much more difficult and time-consuming; for the record, the original version of this was directly disrupted by the most recent false arrest, which hampered the *pro se* legal grind time back to falsely arrested defendant side. They cannot buy Petitioner out of the civil cases filed before all criminal cases, which are retaliatory, but "they" referring to the racketeers have relentlessly stolen as much of Petitioner's time as possible and this pattern crosses over into other areas such as law enforcement intentionally stalling on Petitioner's reports of stalking, fraud, etc., and when made simple as possible including most recently naming a low level string-pulling racketard believed to have faked his own murder; nevertheless, reality of that allegedly armed lethal home invasion could have been stopped with a pistol.

The corrupt judge in the first court for the 422 charge had originally found Petitioner as Defendant competent to fire his corrupt PD and represent himself, but then Petitioner laid down the law on paper proving it was a setup and was about to receive subpoenaed information further incriminating the racket before the ignorant puppet judge said he thought Petitioner was incompetent to stand trial because of serving a Pitches Motion

1 to the Deputy District Attorney instead of the City Attorney, which is a completely  
2 reasonable and correctable error. All staff interacted with at the no longer existent  
3 mental health court; specifically, the psychiatrists, but also the PD and judge are  
4 shamefully incompetent in comparison to Petitioner, and the erroneous and defamatory  
5 false diagnosis used to falsely imprison Petitioner without trial was despicably criminal.  
6 In order to prove competency to stand trial, one has to pass three ridiculously simple  
7 tests that basically cover knowledge and functions of courtroom actors and what a plea  
8 bargain is; nothing on the level of *pro se*, and Petitioner should have been allowed stand  
9 in counsel for something as if a subpoena could not have been easily reprinted and  
10 served to the City Attorney. All three tests to restore competency to stand trial could  
11 have been aced on day one if not in court, but they intentionally stretched out the  
12 detention in their relentless efforts to inflict serious damages.

13

14 **b. Confidential Name Change (Character Frame)**

15 Petitioner is an active member of the California Secretary of State's Safe at Home  
16 Program, which provides service for laws that support victims of crime with address and  
17 name change confidentiality provisions. There should only be one name for Petitioner  
18 on any unsealed record, and since before false arrests, that name should be "Russell  
19 Rope." Any records with a conflict of interest should be redacted, destroyed and sealed  
20 for supreme legal confidentiality. RICO Defendant John & Jane Does including but not  
21 limited to character framing shrinktards of relation have been intentionally trying to  
22 create records linking themselves to Petitioner for exploitative purposes, which was  
23 certainly part of the reason for the name change before filing any civil lawsuit and prior  
24 to opposition's elusive and retaliatory false arrests. Assumptions and unfounded  
25 decisions to obstruct justice in all cases seem to have been made in part based on  
26 religion, which this skeptic believes in less and less the more and more racketeers try  
27 to play God with Petitioner's life despite grand efforts to prevent foreseen violations of  
28 not only rights, but also of life and liberty. Time consuming actions of going through

1 the complicated process of confidentially changing the identity arose from serious  
2 necessity. The corrupt PD on the 422 case was certainly assigned based on religion and  
3 Petitioner's birth name, which was on the never should have been issued arrest warrant.  
4 The PD's name hack indicated he was not there to serve Petitioner, but rather a specific  
5 John Doe; moreover, actions and inactions spoke louder than words.

6  
7 **c. Incorrect Occupation (Character Frame)**

8 + Petitioner is a licensed business owner; Should say "Entrepreneur" or "CEO"

9 - Remove "Unemp; Unemployed; Webmaster"

10 \* This is a pigeonhole / bum character frame; Where was that title pulled from?

11  
12 **d. Fraudulent Amendment Adding "Firearm Restriction"**

13 This restriction was not on the live scan, nor were firearms rights discussed in that case.  
14 There was no type of relinquishment order or notification as required by law. Petitioner  
15 never would have agreed to the plea bargain if anyone were upfront about anything to  
16 do with this. The original condition of probation was only temporary weapons ban while  
17 on informal probation as the record indicated prior to amendment. Not limited to the  
18 culprits doctoring these records belong in prison unless people start pointing fingers at  
19 the roots of evil in exchange for penalty reductions. RICO defendants had and have  
20 been trying and failing to destroy evidence. They recently took down Petitioner's web  
21 server corresponding to the signature date on which not limited to this was going to be  
22 filed and continue proving intent to waste time, fabricate and falsify records. In so  
23 doing, they keep demonstrating the accuracy of allegations made by Petitioner in the  
24 past while simultaneously supporting present claims such as regarding the concealed  
25 medical records alleged to be left open-ended with evil intent in deranged attempt to  
26 stack up to Petitioner's preponderance.

1 **e. False Arrest at UCLA Used for Library [Computer/Software] Ban**

2 Possession of a box cutter razorblade forgotten in Petitioner’s jacket pocket while going  
3 through his storage unit the day prior, with dated receipt from paying storage unit bill  
4 also in pocket, does not come close to violating the law and notwithstanding illegal  
5 search or rejection by City Attorneys who would have lost. This is worse than an  
6 erroneous ding on the record. Officers intentionally put an imaginary address  
7 “Transient Way” on the citation/record in attempt to frame Petitioner as a problematic  
8 bum to whoever might review only the one-sided fabrication. Petitioner had his UCLA  
9 library card along with ID in his wallet. He has lived, worked, and attended school on  
10 campus, which is also where his parents met. Petitioner was not carrying a prohibited  
11 weapon, has levels of affiliation, and good faith intent, unlike others believed to be  
12 behind this incident and standing between him and continued education. Their main  
13 motive for arrest and ban must have been disruption of Petitioner’s since delayed TV  
14 show for which he was creating 3D motion graphics on masters’ library computers at  
15 the time of arrest, which is still causing damages that must be reversed.

21 **f. Substance Non-Abuse**

22 The dismissed concentrated cannabis arrest, with order for return of property, was the  
23 first false arrest by Lost Hills Sheriff’s conspiring with known racketeers who have  
24 unrealistic senses of false entitlement and connections to the Sheriffs. They were  
25 targeting Petitioner with trap checkpoints, and that time it was a few blocks away from  
26 Petitioner’s home the night before a first of its kind tradeshow at the LA Convention  
27 Center, for which Petitioner had been preparing to market his business. Petitioner has  
28 been a legitimate lifelong medical cannabis patient since having major surgical

1 operations to reconstruct his digestive system as a young teen around the time  
2 Proposition 215 passed in 1997. He does not use tobacco products and mostly micro-  
3 doses for chronic pain from not limited to said main reason. Defendants most probably  
4 poisoned Petitioner to force surgery and permanent disability. They have continued the  
5 pattern not only by causing a broken foot resulting in chronic pain with pending tests  
6 for nerve damage and are also interfering with most healthcare and applications for  
7 social security disability based on SSA Disability Blue Book physical disabilities, which  
8 suspect case analysts indicated intent of only approving if Petitioner lets shrinktards  
9 diagnosis him with a mental health condition. It would have been easy to get maximum  
10 benefits since 2016 if not for fact that the honest Petitioner has straight pride in his  
11 flawless mind.

12

13 Not even the only thing arrest on the entire record that might have been legitimate was  
14 listed as public intoxication, without sobriety test, but in reality was for posting a hand  
15 bail aka a sticker on public property in San Diego where police intentionally harassed  
16 Petitioner by lining him up between a bunch of large African American dudes in a  
17 freezing cold jail and forcing him to strip. Petitioner was admittedly drinking with good  
18 friends from college and caught drunk walking to from a pre-party to a concert at a  
19 nearby nightclub, but has never had any substance abuse problems, and while he did  
20 not quit drinking, it is relevant to note that Petitioner has not had so much as a sip of  
21 alcohol in years. This record may or may not have been doctored; either way, it was not  
22 charged, happened another life ago, and should be cleared.

1 **F. More History & Evidence**

2 Petitioner filed civil lawsuits in 2014 at Central District and 2015 at Superior Court,  
3 before forementioned false arrests, which are brought to light in the pending complaint,  
4 or possible amendment if SCOTUS resurrects the 2017 case. Both firearm restricting  
5 cases #BA437791 & #ZM025125 are documented in the First Amended Complaint  
6 (“FAC”) with exhibits proving the claim; sealed lodge + filed & posted:

12

13 Civil complaints detail up to 2017, and while only some new violations have been briefly  
14 mentioned in petitions filed since, most of what is covered in the technical pleading does  
15 not address a substantial number of counts of causes of action over the past six years;  
16 many of which are listed in a nearly expired cease and desist and demand pre-filing  
17 settlement offer. Petitions in higher courts mostly focus on ending obstruction of justice.  
18 A new petition for SCOTUS to reinstate the RICO claim is set to be filed at the same  
19 time as this, and the new RICO complaint or amendment on the backburner is already  
20 over a hundred pages.

21

22 The linked/attached documents, authored by Petitioner, are the only honest files  
23 regarding all aspects of the RICO case, etc., and by this reference, are made a part of  
24 this Petition as evidence. The RICO claim was criminally obstructed for illogical  
25 reasons in District Court. The appeal was also criminally obstructed; without being  
26 written let alone filed. Corrupt judges in the 9<sup>th</sup> Circuit decided to go out of order and  
27 maliciously dismiss a non-existent appeal as frivolous, without requested explanation  
28 and neglectful of correspondence inquiring as to receipt of evidence. In so doing, they

1 obstructed an application for appointment of pro bono counsel, which does not become  
2 available to a Plaintiff until the Appellant level. Obstructors have been making it  
3 impossible to acquire representation, on defense and offensive defense, and that is a  
4 pattern of racketeering activity. It also resulted in a handicap at SCOTUS where they  
5 do not appoint counsel, which would have been inherited from Circuit Court;  
6 nevertheless, this should have been settled in 2014 and Petitioner is more than capable  
7 of representing himself.

8  
9 Corrupt case analysts at SCOTUS were neither docketing nor filing everything sent to  
10 the Justices. They were intentionally stalling to sabotage processes, which are presently  
11 frozen with separate pending applications to both the circuit and Chief Justice(s) who  
12 must respond to the next petition or subpoena will be necessary. Applications and  
13 Petition directed to The Chief are with purpose to restore the RICO claim, resuming  
14 with ADR and discovery plus a logical request and application seeking nominating  
15 support and admission to the SCOTUS BAR.

## 18 **V. MEMORANDUM OF POINTS & AUTHORITIES**

### 20 **A. Points**

- 21 1. Petitioner is Factually Innocent; Falsely Arrested; Falsely Imprisoned
- 22 2. Only Relinquishment Order from 2014 Expired in 2019
- 23 3. Forced No Contest Plea for 422 Conviction was “Expunged” / Dismissed in 2018
- 24 4. “Benefit of the Bargain” Remedies for Fraud + Conspiracy Tort to RICO

1 **B. Authorities**

2 **1. CA Constitution**

3 **a. Article V § 8(a)**

4 Authorizes Governor Newsom to grant pardons.

5

6 “Subject to application procedures provided by statute, the Governor, on  
7 conditions the Governor deems proper, may grant a reprieve, pardon, and  
8 commutation, after sentence, except in case of impeachment....”

8 **b. Article V § 13**

9 Authorizes Governor Newsom not only to command law enforcers to grant the additional  
10 requests for relief and not to oppose the petition filed in superior court, but it also  
11 establishes a duty to terminate corruption.

12

13 “Subject to the powers and duties of the Governor, the Attorney General shall be  
14 the chief law officer of the State. It shall be the duty of the Attorney General to  
15 see that the laws of the State are uniformly and adequately enforced. The  
16 Attorney General shall have direct supervision over every district attorney and  
17 sheriff and over such other law enforcement officers as may be designated by law,  
18 in all matters pertaining to the duties of their respective offices, and may require  
19 any of said officers to make reports concerning the investigation, detection,  
20 prosecution, and punishment of crime....”

18

19 **2. CA Assembly Bill #1076**

20 Signed into law by Governor Newsom and acknowledges existing laws for the purpose  
21 of petitioning the court to at least seal misdemeanor and infraction records.

22

23 **3. PEN § 29860(a-e)**

24 Establishes the right to petition for exemption or relief from firearm prohibition imposed  
25 by PEN § 29805 for anyone previously convicted of PEN § 422, which is the only reason  
26 the DOJ BOF is denying the LER. This law authorizes the court to restore firearms  
27 rights in the interest of justice and with consideration of all relevant evidence. It  
28 requires broad discretion to fashion proper relief as requested.

1 **4. PEN § 530.6(b)**

2 Establishes the right for a victim of identity theft, whose identity has been mistakenly  
3 associated with a record of criminal conviction, to petition for judicial determination of  
4 factual innocence. Petitioner's identification has been stolen more than once by the  
5 racketeers who not only caused the erroneous records that expose the confidential name  
6 change, but those racketeers also obstructed justice and have been moving in on  
7 Petitioner's claim, life, and essentially assuming his identity to some degree, and with  
8 suspected intent to use both the physical identification and persona to commit more  
9 crimes against Petitioner.  
10

11 There is "no reasonable cause to believe that the victim [Petitioner] committed the [422]  
12 offense that the perpetrator[s] of the identity theft" also conspired to via shared liability  
13 under a conspiracy tort to the RICO claim. Petitioner pleaded identity theft in the RICO  
14 complaints. No motive, intent, and the timing explained with evidence in the motion to  
15 dismiss combined with transcript of the accuser's bogus testimony prove perjury. Not  
16 limited to the exhibits presented to the court, prior to the outrageous obstruction, linked  
17 the entire situation to the RICO claim through documented patterns of racketeering  
18 activity such as the accuser's hack name and license plate number. Defendants had  
19 been pulling strings of more than the landlord and other residents, and similarly at  
20 Petitioner's previous home, next home, and relevant to recently debilitating housing  
21 fraud being neglected by the authorities.  
22

23 The new RICO claim includes a lot more than grand theft reported to LAPD. Racketeers  
24 stole Petitioner's backpack with laptop, professional camera, and wallet containing  
25 multiple forms of identification, etc. Investigation, like all reports to LAPD, was  
26 obstructed where video probably would have proved this was targeted possibly by  
27 corruption; maybe secret service, or literally agency cast actors impersonating secret  
28 security, and it simultaneously disrupted the nearly complete Petition for Writ of

1 Certiorari and publishing of several public relations stories. Need for hardware and  
2 longer library hours to rewrite that petition is what brought Petitioner back to UCLA.

3  
4 John Does identified under seal have stolen several physical IDs, relentlessly try to take  
5 Petitioner's life not only physically as in murderously, but also metaphorically meaning  
6 his "identity;" business and intellectual property are money is not the only motive, but  
7 so is the lifestyle Petitioner created for himself. Perpetrators behind identity thefts and  
8 relentless trap tactics are certainly responsible for all the false arrests; directly liable  
9 for more than countless counts of causes of action in the RICO claim thereby making  
10 them "subject to a criminal complaint in the victim's name" in the sense that the victim  
11 is Petitioner and identity thieves are subject to criminal violations and possible  
12 indictments brought by and in the name of Russell Rope.

13  
14 Moreover, the "victim's identity has been mistakenly associated with a record of  
15 criminal conviction" that was forced by the corrupt court and resulted in defamation to  
16 the character or "identity" of a most sane and brilliant Petitioner who is still being  
17 affected post expungement. The identity of the Petitioner needs to publicly win a clean  
18 slate to counter the perpetrators' framework. The arrest warrant for the 422 charge  
19 was not issued for Petitioner by legal name because his identity was criminally obtained  
20 by illegal search, nor was it about something Petitioner did, but in reality, caused by  
21 racketeers attempting to take the identity/life of Petitioner and to destroy if not divide  
22 the intellectual property where they could not otherwise compete with the innovative  
23 serial entrepreneur being the Petitioner.

24  
25 Petitioner filed police reports for not limited to criminal threats prior to false arrests,  
26 which was the legal basis for both joining Safe at Home and the confidential name  
27 change; largely in part for that disconnect from foreseen dumb, evil, envious, greedy and  
28 otherwise worthless attempts to exploit a connection; people and motives are identified

1 in evidence lodged under seal in the RICO claim. Petitioner was at home in the  
2 Hollywood Hills trying to mind his own business before they used the damsels in fake  
3 distress tactic to lure both Petitioner outside and law enforcement to the scene.

4  
5 **3. 2<sup>nd</sup> Amendment** “right of the people to keep and bear Arms, shall not be infringed”

6  
7 **4. PEN § 33865(b)**

8 Establishes a time limit for the DOJ BOF to conduct a background check. When time  
9 limits for things expire, so do the rights to use information contained within said  
10 things; specifically, the inadmissible information regarding the conviction standing  
11 between Plaintiff and his firearm rights.

12  
13 “The department shall have 30 days from the date of receipt to complete the background check,  
14 unless the background check is delayed by circumstances beyond the control of the department.”

15 There is no excuse for the background check to have taken more than half a year despite  
16 numerous follow ups. There would not be a thirty-day limit if it could not easily be done  
17 within thirty days. Circumstances were not beyond control, but rather being  
18 manipulated in effort to attack/provoke, delay, and render Petitioner defenseless; in  
19 furtherance of the criminal racket and following the forementioned pattern of  
20 racketeering activity. Petitioner has no real criminal history; zero record of alleged  
21 violence or anything serious. There is no legitimate reason to assume or believe  
22 Petitioner would not responsibly possess his firearm, as he did the entire time it was in  
23 his possession. The pistol was not involved in any incidents. It was illegally seized from  
24 the carefully secured privacy of Petitioner’s home during the first false arrest. It should  
25 be easy to recognize the entire record is framed with intent to discredit Petitioner’s and  
26 his defense to relentless thievery motivated trap tactics.  
27  
28

1 **5. FRAUD @ CIV § 3294 > PEN § 484 (& § 118) > 18 USC § 1341**

2 Elements are met for more than these causes of action, but the point is numerous  
3 reasons to grant restoration of rights such as “benefit of the bargain” is a legal remedy  
4 for fraud on all the following levels of return Petitioner’s property and restore rights:

- 5
- 6     ▪ Petitioner is a law-abiding citizen who's right to bear arms shall not be infringed
- 7     ▪ Law enforcement would not have been involved if racketeers ceased & desisted
- 8     ▪ Pistol was acquired because law enforcement neglected threats on Petitioner’s life
- 9     ▪ No excuse not to issue CCW permit if not for false arrest
- 10    ▪ Gun would have been returned if not for obstruction of justice in the post 5150 trial
- 11    ▪ 422 would not have occurred if not for the displacing 5150 despite perjurious accuser
- 12    ▪ No false arrests for carrying conceal weapon or brandishing if not for displacements
- 13    ▪ Obstruction is not the only slippery slope that started with RICO tech defendants
- 14    ▪ Gun should have been returned after the first thirty days of fraudulent delays

15 Regarding Petitioner’s entire record at the DOJ, all of which was either individually  
16 dismissed, expired, or an infraction, nothing has been proven regarding defamatory  
17 mental health allegations or criminal activity in their delusional character framework,  
18 but quite the contrary whereas allegations of “false” arrests, corruption, and obstruction  
19 are absolutely proven with pleading, paper trails, and most importantly, clear and  
20 convincing facts and evidence.

21 **6. Gubernatorial / Judicial Determination; Power of the Governor**

22 Governor Newsome has some discretion here, but more of a responsibility to consider  
23 all things exhibited, and no opposing position can be defended, so discretion really  
24 becomes a matter of free will to keep an oath and do the right thing, or jump into a  
25 sinking boat with filled with previous obstructors, whom Petitioner intends to charge  
26 with no mercy RICO. Nevertheless, *pro se* is supposed to be treated with leniency by  
27 judges, and the Governor must also recognize that this was written without  
28 representation or any help where facts matter most; RICO defendants were dismissed  
without denying any of the honest accusations. Reason for remedy is cited with method  
and no madness; simply an honest man seeking justice, attempting to convince an  
honorable Governor to provide relief as requested in the interest of justice.

1 **VI. EXHIBITS**

2 **A. Lodged DVD w/PDFs**

3 Hyperlinks cited in this document lead to .PDF documents not only located on  
4 Petitioner’s website. Identical files and original exhibits are also lodged on DVDs in the  
5 courts or accessible via the dockets, and by this reference, attached and hereby made a  
6 part to this petition hereof. Petitioner is not planning to send a DVD to the Governor  
7 because this can be submitted by email. Please immediately report disrupted links.  
8 More evidence can be provided, detailed, or subpoenaed. Any opposition has absolutely  
9 zero hard evidence; only hearsay with blatant motive.

10  
11 **VII. GOOD REASONS TO GRANT**

12 These *pro se* actions, demonstrated intelligence, knowledge of law, experience and  
13 ability to implement are characteristics of a worthy citizen. Petitioner considers himself  
14 on the same side as good law enforcement, and so should you.

15  
16 **A. Main Points**

32 **C. Motives**

33

34 Petitioner began legitimately seeking justice long before the criminal racket retaliated

35 with their evil framework of false arrests and more where all Plaintiff action has been

36 righteously defensive. Increasingly, and regardless of six degrees of separation, literally

37 everyone in the first world knows, if is not related to, someone trying to compete where

38

1 they cannot legitimately compete with at least one main aspect of Petitioner's  
2 businesses, which have remained on track with a steady pace of evolution, convergence,  
3 and resistance; all spanning nearly three decades and before the niches became  
4 mainstream or were conceived, and in some instances emulated. In short, Petitioner is  
5 original; whereas John & Jane Does enabled by defendant corporations consist of  
6 wannabes and copycats. These assertions, like all Petitioner's claims, can be  
7 defended. Priceless IP equates to control is power and money are motives.

- 8     ▪ Defendants = \$\$\$,\$\$\$,\$\$\$,\$\$\$ & Future Business
- 9     ▪ John Does = Envy + Greed – IP

1 **IX. CONCLUSION**

2 Humbly stating, articulate and intellectual cannot be so easily mistaken for mentally  
3 incompetent let alone to stand trial. Petitioner is factually innocent, which was  
4 exhibited prior to the forced no contest plea bargain leading to the conviction in  
5 question, and the hidden opposition keeps tacking on more lies, which can and have  
6 been proven to be nothing more than one-sided nonsense. It should be extremely obvious  
7 to any literate person of moderate intelligence that this is all truth. The risk of counts  
8 upon counts of perjury or defamation would not be worth the reward to anyone with this  
9 skillset and background. The opposition has much to lose and most of their puppet  
10 racketeers are already losers with everything to gain motive, possibly coerced to believe  
11 in the framework-to-obstruction, but with intent. Please excuse any repetitiveness in  
12 this document as disruptions diverted attention from it several times. The criminal  
13 racket is, in reality, an evolution of intentional, greedy, and envious evil.

14  
15 It is in the best interest of The People, most people directly involved, including numerous  
16 possible dumb John and Jane Does, that we may begin making amends here before new  
17 characters end up getting served with RICO based on the doctrine of conspiracy as a  
18 tort linking obstructors of justice following an obvious pattern of racketeering activity  
19 entailing liability for all causes of action. Please restore Petitioner's constitutional  
20 rights, return his property, provide any additional relief possible, and help him start  
21 clearing the falsified framework of a record that is haunting his rights to live with  
22 security in peace and freedom by granting this petition and requests for relief in their  
23 entirety is "in the interest of justice."

24  
25 Respectfully,
