## **CASE SUMMARY**

### *Obstruction of Justice Must Be Terminated*

This is a Petition for Rehearing; of the Petition for Extraordinary Writ, and a response to what was added to the docket a couple of days ago (on the 15th), but with the 132 (the 13th) obstruction “number hack” date (when the decision was supposed to be made at conference on the 9th) for the outrageous denial corresponding not only to the date for final denial on the original Petition for Writ of Certiorari case # 19-5616, but also to a repetitive pattern of obstruction in the lower courts and a similar pattern of racketeering activity identified with evidence attached to the original Complaint. This is a gross injustice and it must be corrected. The same pattern of 132 number hacks has been stalking Petitioner with Respondent Does interposing both "substantial" and "controlling effects" on not limited to business is money, physical health, property, and liberty.

## LIST OF PARTIES

*Requires Option to Amend if Necessary*

**A. PETITIONER:** Russell Rope is highly educated, incredibly knowledgeable, credibly experienced, and a most talented genius with control of one thing being a flawless mind and perfect mental health demanding your respect, which starts with commanding JUSTICE is success with this Petition.

### **B. RESPONDENTS:**

- Facebook, Inc. is located in Menlo Park, CA.
- Apple, Inc. is located in Cupertino, CA.
- Alphabet, Inc. is located in Mountain View, CA.
- Twitter, Inc. is located in San Francisco, CA.
- JPMorgan Chase & Co. is located in New York, NY.
- John Does Possibly to be Amended (Mentioned in FAC & Sealed Exhibit 52)

Facebook, Apple, Alphabet, Twitter, & Chase, being the only official Respondents, have not changed on paper because there has not really been a proper opportunity to amend additional corporations. Individual John Does, including Jane Does and said additionally problematic entities have not been dismissed in any court. The pursuit of justice does not end with obstruction. The Court should recognize Petitioner's indomitable spirit and legal experience in ordering conflict resolution now, so there does not have to be another wave of legal action, or as many as it takes to achieve inevitable justice.

**Reduced from Complaint/FAC Relief Proposed as Settlement Offer for ADR:**

- ★ Writ of Mandamus for 24/7/365 Petitioner access to Respondent system admins for purpose of stopping violations alleged by Petitioner; to reset settings preventing users from seeing Petitioner posts; to stop sabotage, hacks, censorship, and interference with connections, communications, business and personal life; to permit Petitioner access to private data based on probable cause.
  
- ★ Writ of Mandamus or injunction preventing Respondents from doing business with or providing service to or receiving goods or services from alleged by Plaintiff to be conspiring directly or indirectly with the criminal racket in any way Petitioner deems to be an illegal conflict of interest. Mostly referencing suspects identified in Exhibit "52" and anything questionable to be presented directly to Petitioner because discovery post Petitioner victory voids agreement.

## INDEX TO APPENDICES

### **APPENDIX A:** Architecture Venture; More Information @ “Reasons for Granting”

- ★ New and evolving project. Expect much more detailed upgrades.
- ★ Relevant skill development for various aspects of primary media business.

**Previous Filings:** Also see not limited to Petition for Extraordinary Writ for this case and everything for case # 19-5616. By this reference and new motions, all Exhibits attached to the FAC, which were lodged on CD under seal with Petition for Writ of Certiorari, are made a part of this Petition. Moreover, five Motions and separate Applications to Justice Kagan and Chief Justice Roberts, allegedly none of which made it to The Justices, and all or at least some which should have been granted months ago, were refiled, served, and published to Petitioner’s blog and social network at the same time as this Petition.

**FYI:** Petitioner usually tries to kill multiple birds with one stone, but the strategy here is to throw as many stones as it takes to hit the target once because they are all connected to the one hit wonder that has been obstructed on repeat since before 2014 if you count the first report (located on lodged CD with sealed evidence) to corrupt authorities who could have simply told Respondents to stop after they intentionally neglected numerous cease and desist letters.

the absence of fraud or collusion’ does a judgment from a court with jurisdiction operate as res judicata... The exception mentioned by the 4th Circuit in Resolute Ins. Co.—one for fraud, deception, accident, or mistake—is a classic example...”

## **STATEMENT OF THE CASE**

*Honest Like Abe; Not Frivolous*

**“SUBSTANTIAL” & “CONTROLLING EFFECTS”** Until resolved, either or both outweigh self-endangerment that would result in taking misdirection into a trap entailing elaboration upon new and present threats. ***SCOTUS Rule 44(2)***

## **“GROUNDS NOT PREVIOUSLY PRESENTED”**

### **★ Motions & Applications Obstructed From Reaching Justices**

- Motions for: Filing w/Deficiency (if there truly is), Case Consolidation, Transfer of Evidence, E-Filing, and Expedited Consideration
- Application for: Expedited Consideration & Explanation/Review & for Endorsement of BAR Application
- Strategy to Cover All Bases & Leave No Room for Legal Obstruction

Petitioner is unsure if it was 100% his fault, but admittedly made a mistake with the case numbers and either copied that error from Motion to Motion and App to App, or

Defendants found a way to hack his cloud and did not get caught before filing, or perhaps they changed it after and intercepted the mail; nevertheless, Petitioner corrected it with plenty of time to spare before the scheduled conference. The simple fix would have been easy with e-filing opposed to an obsolete system that leaves too much room for obstruction. Was your system designed this way? It is supposed to be our system, but one can only assume that Petitioner is not the first to have been violated by what should be updated. The case analyst confirmed there would be an opportunity to file the Motions and Applications again with this Petition for Rehearing if the Petition for Extraordinary Writ were denied at conference, which certainly did not come as a surprise, but Petitioner is assured in dynamite vision to win against Bob E Fishin because a racketeer's hook is not high and tight like Rope cuts puppet strings; literate obstructor knows what that means.

The great Supreme Court of The United States is supposed to answer questions. Leaving questions unanswered solves no problem. Nothing changes in a true pursuit of justice until it is attained. This case and the alleged injustices are real, instructions and rules have been followed, so Petitioner has to wonder where there might be a missing semicolon. Coming at the obstruction problem like the programmer and forensic scientist the Petitioner is, who can code in around thirty languages, one has to question minor technicalities because nothing other than criminal obstruction of justice makes sense in dealing with the most honorable, which can not be the intent of the system, or

Justices could be replaced with artificial intelligence. The Courts are supposed to be lenient towards pro per technicalities, not looking for bogus excuses to deny vital rights and then refusing to discuss them for what reason? This case is absolutely not frivolous, so was the evidence not considered by technicality?

Not that it should matter, and not limited to because Petitioner was waiting for an order for a new social security number before completing the name change process at the DMV (now might have to change the name again because of ID theft, bank fraud, and dangerously libelous records), but it may be relevant to let The Court know that the ridiculous delays in justice resulted in Petitioner finally acquiring a REAL ID under his most legal name “Russell Rope” and that anyone with his previous last name is more than suspect of criminal racketeering as previously identified under seal. Unprovoked daily violations have not stopped.

The stalking, computer-fraud-espionage, and attacks have been incessant and whatever lies are permitting the intolerable are only being used to steal business assumingly under false pretenses. Some recent gross violations include not only SBA Disaster Loan fraud obstructing deserved public funding to replace stolen technology necessary to conduct business, but the screen watching losers sunk so low as to delay, for months, and then steal instead of deliver the replacement camera/smart-phone ordered from the frauds at Wish dot com. There was a serious fraud problem with several stimulus check

investments, some of which is connected to more grand violations, but this is not the time to delve into detail. There are many grounds not previously presented yet worth reporting, but preference is to keep the eye on the prize and move away from what is simply not safe to talk about at this juncture.

Shady obstruction regarding everything filed in all three levels of federal courts is a fact, but not worth getting into right now if at all; ultimate justice is more important than any of the petty obstructors. The Court can decide how or if and when to deal with incompetent Does, but the Respondents must pay or said Does, responsible executives, and corrupt authorities should all be sent on an indefinite vacation to federal prison. What is the treble damage karma for people trying to take all of the Petitioner's life?

*\* Hint: \$100,000,000,000; rise.com; & The Mountain*

## **REASONS FOR GRANTING THE PETITION**

*THE LAW. Why Not?*

**WHY WRIT(S) SHOULD ISSUE:** Legally The Man Who Created & Owns The Plan

This is not a game or some get rich quick scheme. Petitioner was an award winning visual artist and developer, then a successful entrepreneur, the first college graduate of his generation of his extended family, and has been on the same track since childhood.

Dumb Does are literally trying to take Petitioner's life. Success is inevitable and undeniable where the claims are as real as the scars. Apparently some unreal people do not have a modern enough reading comprehension level to recognize real. The attached art and architecture is another example of how Petitioner's brilliant mind works on a new practice, such as law, so logically that an illiterate person can see the truth in another light on top of previous presented evidence.

Appendix "A" as in Architecture includes some renderings of Petitioner's technical real estate development plans for projected use of some legal winnings. Petitioner had never used architecture software before watching a bunch of tutorials, the equivalent to reading the legal rules, then sitting down and building the modern sculpture from scratch without any help. That does not mean Petitioner does not want to give or receive help. This development would certainly require a team to complete, unlike pro se legal work despite being obstructed from acquiring representation; point being good things could then very possibly include hiring that team to build more permanent and job creating shelters for the homeless as Petitioner is serious about giving back; "Philanthropreneur."

If Petitioner can breeze through this very complicated technical design work on such an advanced level of initial attempt, and post fabricated mental health framework; what or who is to say he cannot keep his sanity and equally file a perfect lawsuit defending his life on the first try? ( 2014 > 2017 < FAC ) Sometimes you only get one shot, the original

filings were good enough if not flawless. Life is not a video game with a cheat code for infinite lives. One turn is too many for obstruction of justice. There is no excuse. The innovative pursuit has always required and demonstrated a sincere and much deserved need and potential use for funds. Petitioner has survived on efficiency and the only money problems he has ever had are all a result of the combination of insider bank robbery plus false imprisonments that accounted for disruption of perfect credit. Petitioner had always been the most successful businessman amongst his large peer network leading up to the first recognizable pattern of racketeering activity. Money wise knows that it is a tool and how to use it to make more of it. Unlike a money burning joker, Petitioner has always worked hard, paid dues and debts, and the financial framework alone is insulting enough to put the bank out of business.

This is not just about the money though. The domain name is how Petitioner was going to make the money on his own, which is why Respondents were spying and defrauded him of what at the time and still is a life's work; additionally, the one-of-a-kind undeveloped residential property known as "The Mountain," or "The Crown Jewel" at time of discovery, and formerly "The Vineyard," is what Petitioner would have spent a big chunk of change on, where some spying trapping Respondents Does lured him into the claim and have been trying to defraud him of it and everything else because they are fake and trying to make names for themselves. Real estate planning by delusional racketeers has been playing into the false hierarchical scheme of fraudsters and their

insane egos to the point where one dumb billionaire Doe, who was named under seal, exploited Petitioner's idea for a "modern fortress" before trying to pawn off the neighboring Trousdale (Beverly Hills) house on a slightly lower elevation with a slightly less awesome view, to Petitioner, but most probably with plans to upgrade and move another dumb falsely entitled Doe onto the better lot next door. Nobody wants to play the fool, and no legitimate genius should tolerate playing subordinate to a criminal who ranks with goons and all of whom possess intellectually inferior minds. These things, including the nonphysical such as "intellectual property" and "justice," are real, they matter, and are worth fighting for; preferably by law and in court.

Last but not least, this is about family, but not from the poor perspective of people with limited or framed vision. Petitioner's future family, opposed to the criminal families trying to use obsolete frameworks as false justification to obstruct justice and steal from Petitioner, which is also stealing from and obstructing the wife Petitioner would love to have and children you better believe of whom Petitioner is going to be the best father. Respondents have already disrupted Petitioner's family, business, and basically his entire life. That disruption can cost others their freedom is life. Petitioner did not choose to file a lawsuit. Petitioner was attacked and chose to defend his life in the most peaceful way possible. The Justice system, or at least the civil side of it, was created for that purpose, not the opposite.

The choice should be simple. “Give [Petitioner] Justice[s], or give [Respondents & Does] death” via their getting sentenced to prison down the line, in this court or the next, from Petitioner’s inevitable legal victory.

## CONCLUSION

### *Due Process & Justice for Petitioner is The People*

In conclusion, irreparable damages have been done, to the Petitioner, and are still accumulating along with collateral damage. The enterprise of Respondents has not stopped, nor have they issued any demands to go along with their relentless terrorism. Petitioner has no intention of negotiating with people who act like terrorists, and neither should The United States of America. Respondents need to give up the loot or get terminated and go to prison. They still have not denied a single accusation in the face of indisputably clear and convincing evidence, which should speak in volumes about all that matters. The Court must assume Respondents will continue to violate not only the Petitioner, but also others, and with worse than civil war crimes. Please terminate obstruction of justice as soon as humanly possible in this lifetime and join in justice on the rise.

This application for emergency action is addressed to Justice Kagan because she is assigned to the Circuit from which this case arises.

I, Russell Rope, aka “Petitioner” and “Plaintiff” in pro per, as personally as anything I have written in something like a couple thousand pages of totally honest filings and reports, implore you to demand that the other Justices join US by taking swift action in utilizing the full discretionary power of SCOTUS to support my most proper pro per version of justice, which happens to be the only solution on the transparent table, or at least to be specific in your notation, required by the same Rule Twenty Two being the authority for this application, as to the specific reasons for any denials both past and present, so that I may have another opportunity for correction if absolutely necessary, which would not be the response of the prompt action I am most respectfully seeking. Petitioner truly desires no more than what is fair, which begins with expedited movement favorable to the Petitioner in pro per accompanied by as much of the requested relief from the FAC as can at this time be legally commanded by SCOTUS.

## REQUESTS:

- Start with what was also filed as five new motions and PLEASE:
  - Accept all pro se Petitioner filings as is / with any deficiency
  - Expedite everything based on life threatening situation
  - Consolidate the two cases @ SCOTUS
  - Transfer exhibits from the first to the current case @ SCOTUS
  - Grant Petitioner access to electronic filing in pro per
  - Make sure everything filed is the right order and docketed (see Petitions)
- Personally review everything filed in all three courts.
- Follow up with Chief Justice Roberts in regards to Application for Bar Admission

In conclusion, Please terminate obstruction with immediate consideration, not only due to the more relevant than ever labeled “emergency” situation caused by alleged criminal actions including but not limited to more recent and unprovoked stalking, another physical assault, and attempted theft by conspirators as reported to obstructing police, but also to the pending extraordinarily perfected Petition for Extraordinary Writ by endorsing and granting in full the rise to success.

Respectfully Submitted,

This is an Application to Chief Justice Roberts for not less than sponsorship of the attached Bar Application, but preferably for use of total discretionary authority to award Bar Admission.

With your approval, the only seemingly questionable rule that could be used to deny the application would be SCOTUS Rule 5(1), but that could be argued with a generous interpretation that admitting this pro se case to be filed and assigned in District Court, gave admission to practice law in the highest court(s) of the state considering the inherited admission into Circuit (being the highest in the state; superseding state courts) and then to Supreme Court; therefore, Petitioner In Pro Per was admitted to practice law in the highest court(s) since this case was filed just barely more than the required three years ago; aside from the original filing six years that did not inherit admission to higher courts. Think about it like the Conspiracy Tort where the evil Sith puppet conspirator inherits all the crimes, in this scenario the Jedi Master Petitioner similarly inherits the good admission to practice law in said courts. You can know someone better by reading them than face-to-face greeting them, and the rest of the requirements can be easily satisfied if you or the bar make a redeptioniously favorable and mostly symbolic exception based on this logic. If that is not enough, then being Chief Justice should stand for something not limited to the ability to deem someone worthy of passing your

bar, which would not be much different than a POTUS appointing a Justice who had never worked as a judge.

Petitioner is an attorney; someone who practices the law, and that practice has consumed professional work for nearly a decade. Virtuous and of supreme moral character, Petitioner should be officially recognized as such. Moreover, his father is an attorney and so was his father's father, so there is a legacy aspect to anything they can do, Petitioner can do better. Petitioner could have traditionally satisfied any requirements during the time spent fighting obstruction from The Courts being the best law school there is; thanks for the education and think about this is technically afforded by remedies for fraud. Petitioner has no intention of practicing law for other parties, but this honor would make up for some injustice.

The actual application is attached as **APPENDIX B** for BAR. Please share this information and request, if necessary and on Petitioner's behalf, the other sponsor signature from Justice Kagan. Respect this mind and indomitable spirit. Please additionally look into the other case files to make sure they receive fair and expedited attention, start granting everything as is the just thing to do, and join Petitioner on the rise dot com to success.

**PROOF OF SERVICE OF MOTION FOR EXPEDITED CONSIDERATION**

---

I, Russell Rope, declare that on the date of October 17, 2020, as normally required by Supreme Court, that I have served the enclosed MOTION FOR EXPEDITED CONSIDERATION on each party to the above proceeding (including judges), specifically on their counsel by both electronically filing said documents in the Ninth Circuit and emailing where they have previously agreed to electronic service. Furthermore, Petitioner is exempt from traditional methods of serving Respondents for the following reason:

**SCOTUS Rule 29.3:**

“...unless the party filing the document is proceeding *pro se* and *in forma pauperis*...”

Plaintiff is both *pro se* and *in forma pauperis*. The rule is not clear as what exactly to do

in this extraordinary situation, but other SCOTUS instructions and rules give reason for Petitioner to believe The Court can and will provide service if unbelievably necessary.
