**UNITED STATES COURT OF APPEALS
FOR THE NINTH CIRCUIT**

RUSSELL ROPE,
PLAINTIFF,
VS.

FACEBOOK, INC., APPLE, INC.,
ALPHABET, INC., TWITTER, INC.,
JPMORGAN CHASE & CO. &
JOHN DOES 1 TO 10,
DEFENDANTS

No. 18-55782

D.C. No. 2:17-cv-04921-MWF-PLA
U.S. District Court for Central
California, Los Angeles

**REQUEST FOR RECONSIDERATION
RE ORDER TO DISMISS**

Requested Order Date: ASAP!

To The Honorable Court: Please grant this Request for Reconsideration of The Court's unfair dismissal. The authority for this Request is based on The Court's errors and the following explanation:

Plaintiff, according to the rules, filed a timely "Statement & Explanation" as to why the appeal is not frivolous on August 13th, 2018. Nothing regarding the FAC

1 is, has been proven to be, or was even specifically identified as frivolous, and an
2 actual "Appeal" has not even been filed yet. The most "frivolous" thing about this
3 case seems to be the loose use of the term without any valid supporting arguments.
4 Plaintiff applied for appointment of (assistant) pro bono counsel for purpose of
5 correctly filing the Appeal, so it could not possibly be neglected without reason
6 under the false label of "frivolous," which is simply not the case in these honest
7 complaints and properly stated claims. If no one can even explain what is
8 allegedly wrong with or "frivolous" about the FAC or an unfiled Appeal, then The
9 Court is clearly wrong and made an error. Plaintiff, pleading for his life, hereby
10 and humbly requests that The Court reconsider the illegal if not reversed dismissal
11 filed by The Court today, cease and desist from stalling is obstructing justice,
12 answer all unanswered questions, explain not only the unfair dismissal thought
13 process, but also why the lie came months late, and most importantly issue orders
14 for appointment of (assistant) pro bono counsel, to proceed in forma pauperis, for a
15 refund of the fees paid in Central District Court, for exemption from Pacer fees,
16 and for this appeal process to move forward. Furthermore, Plaintiff also requests
17 as much Ex Parte relief previously requested as possible and for an order for the
18 clerk to reissue and US Marshalls to serve Plaintiff's subpoenas that were
19 wrongfully quashed. Any other support would be much appreciated.

20
21 Seriously, all of this is really happening. Defendant John Does have been
22 relentless with daily stalking, harassing, threatening, abuse of power wannabe
23 hacking, interfering with communications, etc. Plaintiff was again physically
24 assaulted two weeks ago without warning by a group of attackers camping out for
25 Plaintiff and with more than highly suspected ties to the "Bad Karma Enterprise"
26 as defined in the FAC and evidence. It is the only logical explanation behind the
27 attack. There is a new battery report being neglected by LASD detectives, other
28 relevant reports with LAPD etc. still being obstructed, and previously quashed but

1 ever so relevant subpoenas, all of which can further prove racketeering/conspiracy
2 allegations not limited to with records and security camera footage, and Plaintiff
3 has too much (should be unnecessary) evidence that has yet to be filed or lodged.
4

5 Additionally, Facebook just illegally "unpublished" another legit business page
6 with more than 10,000 likes for no reason, said they made an error and fixed it, but
7 all that happened was the "unpublished" notification went away and attempted
8 visitors get a "content unavailable" error message while Facebook is still lying
9 about it, other obvious abuse of power wannabe (because they have access) hacks,
10 and having Instagram mess with direct/private messages, stats and video
11 resolution, etc. Chase still owes Plaintiff money they stole directly from the for no
12 legitimate reason terminated business account as documented by paper trail, all of
13 the Defendants are still engaging in the same criminal racketeering behavior, and
14 that hardly covers many more new and connected violations, if reported always
15 supported by facts and evidence. Connected violations have continued or occurred
16 since any court's previous justice obstructing dismissal, all of which are
17 additionally void based on new extenuating and evidence supported circumstances
18 and allegations. Defendants literally had people stalking the Defendant this
19 afternoon after the time The Court made another awful mistake.
20

21 In conclusion, the FAC/Complaint is real, so is the Appeal, which has not even
22 been filed yet, dismissing it as frivolous is an error issued out of order, Plaintiff's
23 life is literally in danger, claims are stated accurately and in accordance with the
24 laws, rules, and procedures, and The Court must be more lenient towards a pro se
25 Plaintiff. Please immediately grant Plaintiff requests then have a happy holiday.
